

Smoke and Carbon Monoxide Alarm

If the alarm sounds:

- **Move to safety**
- You may press the silence button and circulate air by opening the windows and using the ceiling fan.

IF YOUR SMOKE/CO ALARM SOUNDS

WHAT TO DO FIRST—IDENTIFY THE TYPE OF ALARM

Type of Alarm	CO LED: Flashes Red
Carbon Monoxide (CO)	Horn: 4 beeps, pause, 4 beeps, pause
What You See and Hear	
Smoke	Horn: 3 beeps, pause, 3 beeps, pause
Smoke LED: Flashes Red	

IF THE CO ALARM SOUNDS

“ALARM—MOVE TO FRESH AIR”
If you hear the CO alarm horn and the CO red light is flashing,
move everyone to a source of fresh air.
DO NOT deactivate the alarm!

⚠ WARNING!

Actuation of your CO Alarm indicates the presence of carbon monoxide (CO) which can kill you. In other words, when your CO Alarm sounds, you must not ignore it!

IF THE CO ALARM SIGNAL SOUNDS:

1. Press the Test/Silence button.
2. Call your emergency services, fire department or 911. Write down the number of your local emergency service here:

3. Immediately move to fresh air—outdoors or by an open door or window. Do a head count to check that all persons are accounted for. Do not re-enter the premises, or move away from the open door or window until the emergency services responder has arrived, the premises have been aired out, and your CO Alarm remains in its normal condition.
4. After following steps 1-3, if your CO Alarm reactivates within a 24-hour period, repeat steps 1-3 and call a qualified appliance technician to investigate for sources of CO from fuel-burning equipment and appliances, and inspect for proper operation of this equipment. If problems are identified during this inspection have the equipment serviced immediately. Note any combustion equipment not inspected by the technician, and consult the manufacturers' instructions, or contact the manufacturers directly, for more information about CO safety and this equipment. Make sure that motor vehicles are not, and have not, been operating in an attached garage or adjacent to the residence. Write down the number of a qualified appliance technician here:

Detector de fumaça e monóxido de carbono

Se o alarme tocar:

- **Vá para um local seguro**
- Você pode pressionar o botão “silence” e circular o ar abrindo as janelas e usando o ventilador de teto.
